

OSPREY 2

BUILDERS AND FLYERS NEWSLETTER

March 1995

Announcing a New Publication

Hello Everyone!

My name is Dean Cox and I'm an Osprey 2 builder living in Omaha, NE. I'm also the publisher and editor of **YOUR** Osprey 2 newsletter. Please spend a couple minutes reading this letter because I need **YOUR** help to insure that the newsletter gets off to a successful start.

George Pereria, our designer, has supplied us with the master plan holders list for mailings and is very enthusiastic about the start-up of the new newsletter. George also plans to contribute to the newsletter on a regular basis.

The mission of the newsletter is simply to form a network of builders and flyers for the purpose of communicating subjects of mutual interest. But just as important is to motivate the builders and promote camaraderie throughout the group.

Some of the features and topics that we will be covering in the newsletter are: From our Designer, Builders Tips, Builders/Flyers Letters and Articles, What's Up (general questions and comments), The Classifieds, and a Calendar of Events. The format is informal and can include other topics as required.

The first issue was mailed in January as a test case and received significant interest. Our next issue (March/April) will be mailed by April 10th and will follow every two months after that to keep you motivated and informed on the very latest stuff!

The newsletter fees will be \$3.00 per issue in the U.S., \$3.33 in Canada, Mexico & Alaska, \$4.83 Overseas. We will publish five issues in 1995; March/April, May/June, July/August, September/October, November/December for a 1995 subscription of \$15.00 in the U.S., \$16.65 in Canada, Mexico & Alaska, \$24.15 Overseas.

We need a healthy show of support for the newsletter, guys. It will take 60 to 70 subscribers to justify producing the newsletter. So please don't delay subscribe today. If we should fall short of our goal your money will be refunded, but that should not be a problem, right?

Let's get this off to a great start!! PLEASE DO IT TODAY
